Part III DETAILED ACTION

Claims 1-28 are currently pending.

It is noted that claims 23-27 refer to a system, although they are dependent of claim 22 drawn to a method. For the purposes of the restriction requirement, they are addressed as claims drawn to method for analysis.

Restriction Requirement

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-18,22-28, drawn to method for analysis of proteins.
- II. Claims 19-21, drawn to mass-spectrometry system.

The inventions are distinct, each from the other because the system of Group II can be used to practice other materially different processes, such as analysis of non-protein, non-biological specimens.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Art Unit: 1631

Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael Borin whose telephone number is (703) 305-4506. Dr. Borin can normally be reached between the hours of 8:30 A.M. to 5:00 P.M. EST Monday to Friday.
